

## Red Revolt Is Spreading In Germany

LONDON, March 24.—The Communist revolt in Germany, financed, it is declared, by Soviet gold, is spreading throughout the industrial districts of middle Germany, threatening the great ammonia, potash, anthracite and copper works, says a Central News dispatch from Berlin today. Strong police forces have been dispatched to the centers where trouble has grown out of the recent demand of the leaders for a general strike and the arming of the proletariat—Dresden, Eisenach, Freiburg, Leipzig, Halle, Mansfeld and other towns, the message reports.

Efforts of the authorities, adds the dispatch, have only resulted in the Communists strengthening their positions.

Spread In Central Germany.  
LONDON, March 24.—Communist disorders in central Germany are increasing and large sections of industrial regions are actually in the hands of the insurgents, says an Exchange Telegraph dispatch from Amsterdam, which quotes telephonic advices from Berlin during the night.

Reports from Saxony state that more buildings have been damaged by dynamite in various towns, and that at Mansfeld prisons have been opened and their inmates liberated.

Complete anarchy is declared to reign at Hettstadt, where all banks have been raided, and from which the population is fleeing in panic.

Many Casualties In Hamburg.  
An account of the troubles at Hamburg telegraphed by the Berlin correspondents of the Central News says that more than fifty Communists and police are reported to have been killed in the fighting last night at Heiligengraben, in the Altona section of Hamburg. The message adds that fighting is continuing in Hamburg, where the police were defeated at Steilwarder Island, in the free harbor territory, after a fierce battle.

Other reports stated that the Hamburg Communists were calling upon workers to fight behind barricades, and the people were fortifying their homes.

Heavy Losses In Prussian Saxony.  
BERLIN, March 24.—Great property damage and the loss of upwards of a score of lives marked Communist disorders in various cities and towns in Prussian Saxony and in Hamburg yesterday.

The trouble in Prussian Saxony seemed to center about the Mansfeld district, and it appeared that those leading the movement focused their attention on banks and public buildings, many of these edifices being badly shattered or completely wrecked by high explosives.

Stories of violence, robbery and virtual anarchy continued to arrive last night from this region.

Town halls at Plauen and Radeburg were destroyed and county buildings at Leipzig and Freiberg were damaged, one person being injured at Freiberg.

The county court building in Dresden was quite badly damaged by an explosion and three persons were injured.

A similar attempt against the town hall at Auerbach was frustrated by the police capturing a man carrying a bag of dynamite.

Savings Banks Are Robbed.  
A party of armed men, riding in motor lorry, attacked two savings banks in Mansfeld yesterday morning, and succeeded in securing about 200,000 marks from the institution.

The savings bank at Heilbra was also robbed during the day, and strikers in that town compelled the Heilbra Anzeiger to suspend publication.

A large crowd surrounded the police barracks at Hettstadt and demanded the surrender of arms stored there.

A deputation entered the building to negotiate with the police, but the result of these parleys has not been reported.

Fifteen Killed In Hamburg.  
HAMBURG, March 24.—Fifteen civilians and one police officer were killed and six persons were wounded in riots here late yesterday afternoon. The mob attempted to break the police cordon about Vulkan shipyards and to disarm the police.

The police ordered the crowd to disperse and when this order was ignored, the officers opened fire and threw hand grenades into the mob.

The Holm and Voss shipyards, about which there was considerable fighting yesterday, have been closed by the management.

Communist leaders tried to hold a mass demonstration in Heiligengraben, in the Altona section of the city, but were unable to obtain possession of the field, as the police had erected a barbed wire entanglement around it and had stationed armored cars at strategic points.

The crowd, foiled in its attempt to hold a meeting, stoned the armored cars.

Crowd Stones Armored Cars.  
Street car service was virtually suspended during the day, and some streets have been barred.

The Communist Volks Zeitung, of this city, has called upon workers to arm themselves.

Reports of serious rioting at Eisenach, Prussian Saxony, has been received here. Communists there attacked the security police, forcing them to retire.

### AMERICANS PRISONERS IN RUSSIA

BUDAPEST, HUNGARY, March 24.—News of American prisoners in Russia was brought here yesterday by a Hungarian officer who was interned in the Androusovi prison at Moscow, who escaped February 18, and managed to reach Budapest. He brought a message from Captain Emmet Kilpatrick, of the American Red Cross, written on a scrap of muslin, in which Captain Kilpatrick expressed regret at the failure of the American government to arrange for his release. Kilpatrick was in good health February 18.

Captain Emmet Kilpatrick was captured on October 23, last year by the Bolsheviks operating against General Wrangel's forces. He has been held prisoner at Moscow ever since.

Other American prisoners in Androusovi are: Captain M. S. Cooper, of Jacksonville, Florida, an aviator with the Polish army; Nathan Chadrow, 1909 New York avenue, Brooklyn; Kala Minitupolo, of Chicago, manager of the American Agricultural Company's plant at Odessa, and Maurice Zuker, a Brooklyn Communist.

Mrs. Ruth Harrison, of Baltimore, has been interned in a prison camp near Moscow since last November.

Ford's Paper Barred On Chicago Streets

CHICAGO, March 24.—Sale of the Dearborn Independent, a publication issued by Henry Ford, on the streets of Chicago was prohibited today under police order, following a conference between James W. Green, acting corporation counsel, and Captain Lavin, in charge of the central police station.

"Captain Lavin informed me," said Green, "that the anti-Semitic attitude of the paper, which was being sold in competition with a Jewish newspaper, recently caused a riot, which threatened to grow into a riot. The city's action was taken under its general police powers with a view to keeping the peace."

### Distinguished Prelate Passes Away At The Age Of Eighty-Seven Years

BALTIMORE, MD., March 24.—James Cardinal Gibbons, archbishop of Baltimore, and primate of the American Catholic hierarchy, died at the archiepiscopal residence here today after a prolonged illness, which mainly affected his heart. He was in his 87th year.

The end came peacefully at 11:33 o'clock.

Beside the cardinal's bed stood every member of his household, and when it was seen that the distinguished prelate had passed away, the priests

fell to their knees and began reciting the prayers for the dead.

Telegrams were at once sent to Pope Benedict at Rome, Monsignor John Bonzano, apostolic delegate at Washington, and to every prelate of the American Catholic hierarchy, more than a hundred in number, informing them of the cardinal's death.

As it is expected that most of the church dignitaries in the United States will attend, it is probable that the funeral will not take place much inside of a week.

Cardinal Gibbons Unconscious For 24 Hours

Cardinal Gibbons had been unconscious and in a dying condition for the last 24 hours. A slight hope was raised among his friends and associates last evening when his pulse grew stronger, that death might be deferred, but this rally was only temporary, and was merely an evidence of the cardinal's remarkable vitality.

He was perceptibly weaker this morning and it was then realized that he would not live the day out.

A touching incident in connection with the last hours of the cardinal was the bestowal of the pope's benediction upon him, which had just been received by cable from Rome.

The cathedral bell was tolled in respect to the cardinal's memory when word of his death was sent to Mayor Broening.

It was realized by those closest to him he probably never again would arise. Cardinal Gibbons' physicians said repeatedly in the earlier stages of his illness that he was sound, organically, as could be expected in a person of his years, but that he suffered from the effects of his age and from fatigue that resulted from the prodigious expenditure of his energies in the performance of his duties as senior prelate of the Catholic Church in this country.

Although not of robust build, the cardinal enjoyed remarkably good health and his close associates often marveled at his capacity for work, his tireless industry and recuperative powers. But about six months ago a change began to be noticeable. He grew a little thinner; he became less active in his movements and other signs indicative of a breaking up appeared. As a member of his household expressed it, "his confidence seemed to grow old suddenly."

Nevertheless, the cardinal continued his usual daily routine, interrupted only by visits away from home to church

### Income Tax Collections Total \$3,050,000,000

WASHINGTON, D. C., March 24.—Income and profits tax collections for the March 15th installment was estimated, by Secretary Mellon today to aggregate \$675,000,000. To the close of business March 22, \$650,000,000 has actually been deposited from the collections, Mr. Mellon added.

Mr. Mellon, estimated on this basis that total revenue from income and profits taxes for the fiscal year ending June 30, would aggregate \$3,050,000,000. This amount, he said, was fully up to the treasury expectations.

Evolution, Rather Than Revolution, Russia's Salvation

BY DAVID LAWRENCE  
(Copyright, 1921, by Times Pub. Co.)  
WASHINGTON, Mar. 24.—The Harding administration will consider seriously the making of a trade agreement with the Russian people provided certain conditions are fulfilled which will lead to the industrial recuperation of that country.

The communication from Lenin appealing to President Harding to follow the course of Great Britain and resume trade with Russia has opened up discussion here in a significant way. Broadly speaking, the Harding administration is anxious to discover the growth of bolshevism in the world.

Three Policies  
FIRST: External invasion. This has been tried both by the allied powers and the counterrevolutionary elements which had the support of the allies. The effect has been to strengthen the bolsheviks rather than weaken them for it has given Lenin a banner around which to rally the Russians. He has successfully persuaded them that it was a matter of national defense against foreign invasion and has convincingly appealed to the patriotism of the masses thus delaying demands for internal reform.

SECOND: Revolution from the inside. The American government in common with the British government is unwilling to contribute anything to the situation that may upset things inside Russia without bringing internal peace or external trade. Furthermore, more revolution means chaos, anarchy and complete disorganization, more hardships for the Russian people, hunger, starvation and more complex reconstruction problem in the end than at present.

THIRD: Evolution with the assist-

### Further Penalties Unless Germany Pays

PARIS, Mar. 24.—The German government was notified by the allied reparations commission today that the total amount of 20,000,000 gold marks (\$5,000,000,000) due under Article 235 of the peace treaty must be paid by May 1 or additional penalties will be inflicted upon Germany.

### DROPS OVER FOUR MILES IN PARACHUTE

CHAMPAIGN, ILL., March 24.—A new world's record for a parachute leap was established today when Lieutenant Arthur G. Hamilton dropped 24,400 feet, over 4.6 miles, from an airplane at Chanute Field.

He made the ascent in a De Havilland B-4 plane, piloted by Lieutenant Harry Weddington, and descended in a regulation parachute. He slept during the hour and twenty-six minutes required to make the ascent, but kept much awake during the drop.

"It was just like any other leap," was Lieutenant Hamilton's only comment after establishing the record.

Lieutenant Weddington was dressed for an altitude flight, but Lieutenant Hamilton wore only the regulation outfit. He occupied the rear cockpit. He was wrapped in blankets and the cockpit was covered with a canvas. A wire from the canvas to Lieutenant Weddington's seat was used by the pilot to release the covering.

The rush of cold air woke Lieutenant Hamilton, who stepped upon a platform at the plane was in proper position, leaped off into space. The parachute opened perfectly.

Lieutenant Hamilton landed seven miles northeast of Chanute Field. There was little wind when he jumped from the plane, but at an altitude of 18,000 feet a

strong current carried him along. He said this current was no different from that encountered in previous parachute descents. He declared there were no peculiar sensations at any time during the descent.

Lieutenant Hamilton held the previous record, which was 20,900 feet, made at Carlstrom Field, Arcadia, Florida.

U. S. Doesn't Owe France A Cent.

WASHINGTON, D. C., March 24.—Secretary Mellon today spoke an apparently final word for the treasury concerning allegations in France that this government still owes France money on the Louisiana purchase and other old transactions. A further search of treasury records was made, he said, and failed to reveal any evidences of unpaid obligations or anything to indicate that the records themselves were incomplete.

Sinn Feiners Fail In Attempt To Free Prisoners

### PACKERS' EMPLOYEES SIGN WAGE AGREEMENT

WASHINGTON, D. C., March 24.—Expressions of gratification were general today in administration circles over the successful settlement through the mediation of Secretary Davis of the dispute between the five big packers and their union employees.—the first major labor controversy to come up for adjustment under the new administration.

Representatives of both sides were congratulated today by President Harding.

The packers' and employees' committees were accompanied to the White House by Secretaries Davis, Wallace and Hoover, who acted with them in the negotiations, and by Samuel Gompers, president of the American Federation of Labor. The president thanked the entire delegation for their work, declaring they had rendered a great public service by coming to an agreement.

It was Mr. Gompers' first visit to the White House since the change of administrations. He declared himself much pleased with the settlement and with the statement of congratulation made by the president.

Before the conference with the president, Mr. Gompers described the agreement reached as the result of "mutual concessions" and expressed the belief that it would lead to a plan for better understanding between the packers and their employees.

Compromise by both the packers and their employees made possible a settlement of the dispute. Representatives of the latter agreed to accept the wage reduction of eight cents an hour and 12 1/2 percent for piece work, while the packers met the demand of the workers for extension of the war time arbitration agreement for six months, or until September 15. The other major provision of the agreement was the retention of the basic eight hour day and overtime rates as provided in a previous arbitration ruling.

Although he announced the employees would be urged to accept the agreement at mass meetings to be held in Chicago and other centers near (Continued on Page Eight)

## Oakland Automobile Is Stolen

Within a half hour after he had parked his machine on Fifth street, Washington, within the shadow of two churches, First Evangelical and Bigelow, George Rase, grocer, 1801 Eleventh street, found his 1919 model Oakland automobile missing.

It was parked about 7 o'clock when Mr. Rase went into the First Evangelical church and when he came out at 7:30 the machine had already disappeared. It is practically new, having been driven only 3500 miles. It has a dark green body, carries license number 189,172 and engine number 66688. Mr. Rase is offering \$25 reward for its recovery.

The police were notified of the theft of the machine immediately but a search of the city was without success. Police were unable to notify nearby cities to be on the lookout for the machine as Mr. Rase did not know its license number. He secured the license number this morning from Columbus and nearby cities were notified today to keep a look out for the machine.

CHICAGO, March 24.—Colonel Cooper William Procter, manager of Major General Leonard Wood's campaign for the Republican presidential nomination and contributor of \$300,000 to the campaign expenses, today filed suit to recover \$110,000 from Albert A. Sprague, of Chicago, treasurer of the campaign.

The \$110,000 was said to represent Major Sprague's liability on money borrowed by him and by Colonel Procter for campaign expenses.

## Mayor Explains Tax Problems

Before a fair sized number of Chamber of Commerce members Thursday noon, Mayor William Gableman made an interesting talk on the subject "What Becomes of the Taxation Dollars." Manager J. Paul Heibel was chairman.

The talk as delivered by Mayor Gableman was one that is of interest to every citizen. Several big charts containing figures were used in illustrating various points of the subject.

Major Gableman at the start explained that he had served four years as city auditor and that in that time he gained much experience in taxation matters. At that time he said he did not think he would have use for the valuable information later but added that the experience has been a great aid to him since he assumed the office of mayor.

He discussed taxpaying from two angles dividing taxpayers into two classes, the unconscious taxpayer and the direct taxpayer. Under the first head he placed the voter who did not own property and who always voted for additional taxes because he thought the property owner and mon-

## Funeral Arrangements For Cardinal Gibbons

BALTIMORE, Md., Mar. 24.—Chief features of the arrangements for Cardinal Gibbons' funeral were announced at the archiepiscopal residence late this afternoon. The requiem mass will be celebrated next Thursday at 10 a. m. at which Monsignor John Donagan, apostolic delegate at Washington, will officiate. The interment will be in the crypt under the high altar of the cathedral where rest six of the eight archbishops and bishops who preceded Cardinal Gibbons as the head of the Baltimore diocese.

Masses for the repose of the soul of the late cardinal will be said at the cathedral each morning next week prior to the final services on Thursday.

After the Communion Service Friday evening all who will take part in the singing of Protheroe's Easter tide, the dramatic Easter Cantata that is to be given by the United Brethren choir next Sunday evening at seven o'clock, will meet for the last practice rehearsal.

Coming at the close of the special Passion Week services that have been conducted in this and other churches of the city this great master production will serve as a fitting climax to this Passion and Resurrection. The choruses and solos throughout are most wonderful in their dramatic effect. From the harsh, outbursts of the angry mob during the trial and crucifixion scenes the keen, victorious suffering and death of our Lord to the exultant joys of the Living Christ, the suffering, death and resurrection are vividly portrayed in a dramatic and effective manner, such as lies only within the power of music.

The Cantata will be given by the volunteer choir of thirty voices under the direction of Mrs. E. H. Dailley, with Mrs. Nellie Niswonger at the organ, and the public generally are invited.

## SPECIAL SERVICE ON GOOD FRIDAY

A special service is arranged for Good Friday afternoon at Bigelow St. E. church, at 3 p. m. Mrs. Demarest will bring a message appropriate to the day, for men and women and at 4:30 p. m. the two congregations Bigelow and First Presbyterian, will unite in a Union Communion service.

## STARTS ROW IN POOLROOM; GUN PLAY FOLLOWS

(BULLETIN)

Wilbur Meacham, Vinton avenue, who was shot through the nose when in the Frank Farrell pool room, Eleventh and Lawson streets, Wednesday night, was X-rayed at Hempstead hospital Thursday afternoon by Virgil Fowler. It showed that the bullet has lodged in the neck behind the throat. No efforts will be made to probe for it at this time.

On a charge of shooting with intent to wound Frank Farrell when arraigned in municipal court this afternoon waived examination and was bound over to the grand jury. His bond, fixed at \$500, was furnished and Farrell was released.

He is charged with shooting Wilbur Meacham, the gun-play taking place last night in Farrell's pool-room at Eleventh and Lawson streets. Meacham was not seriously wounded, his physicians asserted today.

After being arrested last night, Farrell stated that he shot in self-defense. He says he was at his cash drawer counting the day's receipts when Meacham came and started to walk around his counter.

"When I told him not to, Meacham said he was going to do as he pleased and when he approached me in a menacing manner I secured my gun and fired. There was a butcher-knife lying near the lunch counter and I thought Meacham had picked it up. He was drinking and I was afraid of him," Farrell said Thursday.

The gun-user said he and Meacham were good friends and that they had never before had any trouble. Farrell is 45 years old and at his hearing today was represented by Attorney L. F. Kimble.

"Farrell was justified in giving me a licking, but I do not believe he should have shot me," Wilbur Meacham said in Hempstead hospital this morning, when a Times man asked him to give his version of the shooting, which occurred in the Stag pool-room at Eleventh and Lawson streets at 11:15 last night when the proprietor, Frank Farrell, aged 45, shot Meacham through the right side of his face.

"I was in the wrong, and admit it. Frank should have hit me with a club. I don't know why he shot me as he is a bigger man than I am and knew that I was not armed. I had a couple of drinks and started the trouble around his counter. He was closing up and was counting his money. I did not want his money and would not have started around the counter if he had not warned me not to. When I got within three or four feet of him he pulled a gun and shot me. I said, 'Frank, you will be sorry for this, and the next thing I knew I was taken to a hospital.'"

When asked if he and Farrell had any previous trouble Meacham said that they had not and were good friends. "I like Frank and have spent a lot of time around his pool-room," Meacham said today.

The bullet passed through his left cheek, near his nose and then through the roof of his mouth. Meacham does not know whether he swallowed the bullet, spat it out, or whether it lodged in his throat. An X-ray will be taken to learn if it lodged in Meacham's neck. He complained of severe pains there this morning and is unable to move his neck. Meacham says he lives at 2211 Vinton avenue and prior to coming to Portsmouth he worked in Portland, Ore. He says he has not been working for several months.

Mrs. B. F. Khabile has returned to her home, 1020 Hutchins street, after a visit with her daughter, a Bernice, who is a student at Maryville College, Maryville, Tenn. On her return trip she stopped off at Cincinnati for a visit and heard Billy Sunday preach.

## WORK YOUR PLAN

If you have a plan for saving money you doubtless have it because there is something definite for which you want the money.

That means that your savings plan is WORTH WHILE provided you WORK IT HARD.

You of course will have need for money in the future and in order to accumulate it conveniently we suggest the plan of calling at THE ROYAL every week to make deposits. The plan of making weekly deposits has proved time and again to be the most successful of all plans for building up a surplus fund.

Get the habit of calling regularly at this strong savings institution—work your savings plan hard—and there will be no doubt as to your having the money you need at the right time.

Our conveniently located offices—Gallia Street on the Square—and the liberal interest paid, 4 per cent per annum, add to the encouragement of saving in THE ROYAL.

## To Put On Flesh

Thin folks will find this simple test well worth trying: First weigh yourself and measure yourself. Next take VITAMON—two tablets with every meal. Then weigh and measure yourself again each week and continue taking VITAMON regularly until you are satisfied with your gain in weight and energy. VITAMON contains those wonderful health-giving substances of Nature—the vitamins—which Science says you must have to be strong, well and fully-developed. By increasing the nourishing power of what you eat VITAMON supplies just what your body needs to feed the shrunken tissues, strengthen internal organs and renew shattered nerve force. It is not only a question of how much better you look and feel, or what your friends say and think—the scales and tape measure will tell their own story. A two weeks' test will surprise you.

IMPORTANT—While the amazing health-value of VITAMON has been clearly and positively demonstrated in cases of lack of energy, nervous troubles, anæmia, indigestion, dizziness, sallow skin, poor complexion and a generally weakened, rundown condition, it should not be used by anyone who objects to having their weight increased to normal. Your own druggist has VITAMON in stock or can quickly procure it for you.

PORTSMOUTH PEOPLE HELPING TO  
SAVE THE STARVING IN CHINA

How suffering anywhere in the world touches the hearts of Americans is shown by the voluntary gifts of money for the famine victims of China, that are being made by residents of this community. Recently a letter was published in The Times from Mrs. George L. Davis, formerly Miss Irma Jordin, of this city. Her husband, the Rev. Mr. Davis is located in Peking, and Mrs. Davis is associated with him in the fight that is being waged to save thousands of the Chinese from starving to death. She wrote to her mother, Mrs. J. J. Rardin, telling of some of the pathetic cases that have come under her direct notice, and since its publication \$100 has been given to Mrs. Rardin to be forwarded to her daughter in Peking for the relief of the starving Chinese.

Mrs. Rardin in acknowledging these gifts writes as follows to The Times: Editor of The Portsmouth Times: Dear Sir:—I did not know that my name was in your paper. I think when she sent her acknowledgment to my class for their little offering sent to her, by them, for the fam-

ine sufferers, would result in free will offerings from the readers of The Times, to the amount, to date \$165.00.

In behalf of my class I wish to say that they had only sent me \$15.00 offered to but had responded liberally to the Easter offering taken in our church.

Nor did they stop there but at a suggestion they raised \$20.00 more to which two ex-members added five dollars each making \$30.00. The evening the letter was published a young woman called up and asked for Mrs. Davis' address saying she wanted to send her some relief money. I gave her the information, telling her to be sure to send New York draft instead of check, consequently her gift is not counted in the above amount. The following P. M. a lady called to leave a check for \$25.00, and a half dollar each from herself and a neighbor.

A little later another lady placed 25 in my hands saying "It was from her and her family for the famine sufferers." Since then the amounts for the same cause, have been from

IRONTON, O., March 24—Another definite move in consummation of the Ironton-Russell bridge project was taken yesterday when articles of incorporation were forwarded to the secretaries of state in Ohio and Kentucky.

It is necessary to incorporate the bridge proposition in both Ohio and Kentucky with separate companies and when the organizations are completed to merge them into one organization.

The incorporators for the Ohio company which will have an authorized capital stock of \$140,000, are Dr. A. C. Lowry, A. H. Mitterdorf, W. P. Phipps, E. S. Culbertson, Leon Isaacson and E. J. Merrill.

The Kentucky incorporators are all the Ohio incorporators and in addition E. E. Fullerton, of Greenup Ky., and Mrs. Sallie B. Kinnman, of Russell, Ky. In Kentucky the authorized capital stock is \$500,000, making a total capital of the combined companies, \$700,000.

THIS IS A STUDEBAKER YEAR

New York By Day And Night  
BY JACK HOOD

There is one thing that can never be said about New York, and that is, that there is nothing doing. There's always something going on here for everybody of every taste. There are so many big things that they get common. Things occur here daily and are lost sight of which if transpired in Portsmouth would be remembered and talked of for months, and even years.

I have been in New York but two days, and have been to four places already, and any one of them would have delighted the hearts of hundreds of Portsmouth people, and they would look back in after years with much pleasure on their attendance at these events. On Friday night I attended the All-American patriotic meeting at Madison Square Garden, where there were fifteen thousand people in the hall and one hundred and twenty-five thousand people tried to get in. General Pershing was one of the speakers. I got to shake hands with him after the meeting. Now, how many of you would like to have attended that meeting?

Today being Sunday, I went over to

Brooklyn to hear Rev. Newell Dwight Hillis, probably the most famous preacher in the world. Another great treat, yet a somewhat common event here in New York. This afternoon I went to a piano recital by Josef Hofmann, one of the world's masters. Tonight I attended a concert by Galli-Curci. Wouldn't a few events like these in Portsmouth put us on the map? Yet here they are every day occurrences. In the limelight today: forgotten tomorrow in the maze of something else as great and as famous.

In another article I am reporting these four events as seen through Portsmouth eyes, and if The Times sees fit to publish it, I hope to give you some of the interesting particulars, both serious and humorous, as they appeared to me.

I never seem to get used to these restaurants where they have the menu in French or Portuguese. I'm always ill at ease after I order until I see just what I'm going to get. A friend of mine told me he was dining in a French menu restaurant and ordered

For Itching Eczema,  
Old Sores and Piles

"I guarantee my ointment," says Peterson of Buffalo, "to cure eczema, to stop itching at once and any reliable drug will cheerfully refund your money if PETERSON'S OINTMENT doesn't do everything I claim." William A. Carley of Franklin, N. Y., is surely a wise man. He writes: "I have used PETERSON'S OINTMENT on a little boy suffering terribly with eczema. It did the work."

Then there is Alex. Loutlet, a brave fireman of Buffalo, who is glad to write as follows: "I had an old sore on my leg for many years. The best doctors failed. PETERSON'S OINTMENT entirely healed the sore quickly. And from over in Canada comes a letter from A. Blockley stating: 'The best thing I ever hit for itching piles is PETERSON'S OINTMENT. A big box for 25 cents. Mail orders filled by Peterson Ointment Co., Inc., Buffalo, N. Y.—Adv.'"

what he thought was mashed potatoes. Imagine his chagrin when the waiter brought him three paper napkins.

Competition don't seem to bother the restaurants any over here. I have eaten today in two, both good ones, and just across the street from each other. In one, fresh strawberries and cream were twenty-five cents, in the other sixty-five.

One of the restaurants here claims to feed thirty-five thousand people each week and it is not the largest. They use in one week 3,000 pounds of poultry, 7,000 pounds of beef, 11,550 pounds of potatoes, 1200 pounds of butter, 8,900 pounds of flour, 1,000 pounds of coffee, 10,500 pounds of

oysters, 5,000 quarts of strawberries, 18,000 eggs and 200,000 rolls. Sounds like requirements for the Harding barbecue at Jackson.

I often wonder just how many of the freak strikes you see here in New York are actually on New York people. I imagine that a lot of them are being perpetrated by folks from small places who like to get away from home and make a "splurge." Folks who wouldn't have the nerve to wear a dress suit down Main street at home, bring it here and parade down Broadway like "Diamond Jim," and of course it doesn't hurt a thing in the world. They are having the time of their lives and folks are saying "What a wonderful place New York is." I'm not sure but that I could do a plug hat and Prince Albert and trapse up and down Fifth Avenue swinging a cane, and enjoy myself. I'm sure I could sport that loud lavender shirt that is stuck away in a drawer at home and which I haven't the nerve to wear in Portsmouth.

This (Sunday) afternoon I walked through Central Park, the day was so warm and bright, and thousands of people flocked there to enjoy the first real day of spring. Central Park covers acres and acres of ground, some rocky, some level and some wooded. Hundreds of children of the city who have only the city streets to play on were having the time of their lives, running, jumping, playing ball and the like. It really made one's heart glad to stand and watch them play, for you just knew their city-raised bodies needed just such exercise and wholesome fun. Their enjoyment and mine, however, were short lived, for soon two big cops came over the hill blowing whistles and ordering the children off the grass and on to the cement walks. The ball games were stopped. The little girls playing "catcher" were chased away and the little tots playing "drop-the-handkerchief" went running to their parents, as the two blue-coats marched proudly over the deserted field. I am not a New Yorker and perhaps should say nothing, but I can't help but think that "somebody" blundered. The thought occurred to me that those lucky cops might better be employed down town chasing burglars, murderers and boot-leggers, the sort of folks who need to be caught, yet who seem to be mighty hard for cops to see.

Manufacture Of Strawberry Or  
Any Other Berry Wine Permitted

WASHINGTON, Mar. 23.—A permit to manufacture wine out of strawberries for non-beverage purposes was issued tonight to the Strawberry Growers Association of Louisiana by the Bureau of Internal Revenue.

Provision is made in the permit that no sugar shall be added to increase the alcoholic content of the product. While no explanation of the issuance of the permit was made by the bureau, officials said that the strawberry growers had appealed to prohibit authorities for permission to set up a winery in order to care for their surplus crop, which was estimated to be worth about \$5,000,000. Under the Volstead act, it was explained, it was legal to establish wineries for the manufacture of non-beverage products for sacramental or medicinal purposes.

Whether the principle on which the permit was issued to strawberry men would apply in other cases, officials could not say.

Such procedure, officials intimated, would not be confined to strawberry producers, but would include producers of other juicy berries—blueberries, blackberries and the different shades of raspberries—and might in the case of necessity, cover vegetables such as beets, and possibly dandelions and elderberries.

## PIKETON

The reading contest which has been carried on by the Ladies Aid for the past two months, will close next Tuesday night, when a big jubilee meeting will be held at the Methodist church. Reports will be made by the captains of the eight different teams into which the society has been divided and a prize will be awarded to the team which has covered the most work during the contest. After the close of the reading contest, a play will be given.

DOESN'T NEED ANY  
LAXATIVES NOW

Mr. Becker says life is a joy, without constipation or stomach trouble.

"I had catarrh of the stomach and head for three years. My stomach was so bad that every time I ate anything sweet, such as fruit or pastry, the burning hot water would run out of my mouth. I took a laxative every night."

"Since taking Milk's Emulsion, my bowels move regularly. I have now taken ten bottles and have gained 101-2 pounds. All my friends remark how fine I am looking, and it seems a pleasure to live again, without stomach trouble."—Bert. Becker, Miami, Ohio.

Physicians usually make slaves out of their users, and force the bowels instead of correcting them. Stomach trouble in many cases is directly due to constipation.

Milk's Emulsion is a pleasant, nutritive food and a corrective medicine. It restores healthy, natural bowel action, doing away with all need of pills and physics. It promotes appetite and quickly puts the digestive organs in shape to assimilate food. As a builder of flesh and strength, Milk's Emulsion is strongly recommended to those whose sickness has weakened, and is a powerful aid in resisting and repairing the effects of wasting diseases. Chronic stomach trouble and constipation are promptly relieved.

This is the only solid emulsion made, and so palatable that it is eaten with a spoon like ice cream. Truly wonderful for weak, sickly children.

No matter how severe your case, you are urged to try Milk's Emulsion under this guarantee—"Take six bottles home with you, use it according to directions and if not satisfied with the results, your money will be promptly refunded. Price 75¢ and \$1.50 per bottle. The Milk's Emulsion Co., Terre Haute, Ind. Sold by druggists everywhere."

## SPECIAL RELIGIOUS SERVICES

First Christian  
Conversion reported 77  
Conversion Wednesday 18

Total to Date 95

The members of the First Christian church rejoiced exceedingly, Wednesday evening when at the call for conversions, eighteen people, practically all adults stepped out and made the good confession, bringing the total number of additions up to 95. This is a most phenomenal showing and conclusively demonstrates Rev. Oakley's contention that as much good can be accomplished in an eight day revival as through the protracted meeting covered a period of several weeks. It further demonstrates that everything is working in unison at the church of the cordial welcome, and that those who have been predicting a total of 200 additions will more than likely see their prophecy verified. The response to the invitation last evening seemed to be a climax. There was no hesitancy on the part of the audience, and right at the very beginning the people fairly streamed down the carpeted aisles. It was a most inspiring sight, indeed, and many of the members felt like shouting "Hallelujah."

Rev. Oakley chose for his subject "Preparedness" and he was not only convincing but eloquent as well. He did not mince words, but drove home his arguments in a way that must have carried convincing power. He had a sympathetic audience and was given the closest of attention.

Revering the sermon the big chorals led the congregation through several inspirational selections, thanks to the capabilities of Miss Sells of Newark, who is directing the singing. Mrs. Charles Brockman sang a very appropriate selection and the meeting was off to a good start. This evening the

services will be featured by a solo on the part of Mrs. O. D. Deitzler, of Trinity Methodist church, and a very talented soloist. The choir from the Junior department, who occupied a reserve seat section last evening, did great work and will play another prominent part in the services Saturday evening.

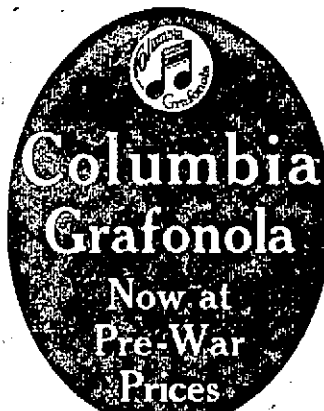

This evening, Rev. Oakley will speak from the subject, "Not Forever" and as a word of caution it will pay all to come early if they expect a good seat. The crowds that have attended are the best in the history of the congregation, and last evening there were no vacant chairs or seats.

Discussing his subject of "Preparedness" last evening, Rev. Oakley said in part:

"We all know what preparedness is in a military, financial or material sense, but we are not so much concerned about preparedness in a spiritual sense. This large and intelligent audience is divided into two classes—the prepared and unprepared. You are ready or not ready. Unpreparedness has cost many a man his job—a king his kingdom, and unpreparedness will cost many people their souls. If this audience was gassed with deadly poison and all succumb—how many would be ready?"

"It isn't so much of good works—it's a question of faith in Christ and service to the Master. There is some extenuating circumstance for the sins we commit, but no excuse for the sins the other fellow commits. If we are saved, we are to be saved by the mercy of God—not by our good works. If redeemed, we'll be redeemed by the blood of Christ."

"We all haven't the same candle-power—it's a question of being lighted and shining for God. Some people have never lighted their candle. A

life as a fight, you need a trainer—Jesus will help you to fight the good fight of life. It's the unexpected things that get us—if you are not an active Christian you expect to be some day. But man proposes and God disposes—one of these days your plans will be shattered and you'll be found wanting when the bridegroom comes. We ought to live so well we can stand the Master's call us tonight. For there is but one word on the face of time for a Christian and that is NOW."

Trinity M. E. Church

"When a man cannot see the outcome, when he sees everything closing upon him, when there is nothing but darkness and clouds about him, then it takes faith to walk on where we cannot see." Of those attending the services at Trinity church last night, none there were who went away with other than the feeling that "it was good to have been there." Leading the people through the scenes of the Lord's suffering in the Garden on the night of the betrayal as portrayed in Dr. Moffet's translation of the New Testament, the Rev. N. E. Butler spoke from the special text "In the Garden," while a mixed quartet composed of the Misses Bessie Mink and Patricia Stewart and Messrs. S. R. Crawford and Harry Mathiot sang C. Austin Miles composition which has become a favorite of so many, "In the Garden."

The prophets in the Old Testament had said that the day would come when war would no longer be known, when there would be a division in the social and industrial world, when weapons would be turned into instruments for use in industry, and when there would be a more equitable distribution of the good things of this world. Jesus said, when He came, that that condition was near at hand, that He had come to inaugurate it. The people received Him with enthusiasm because they did not understand Him. They thought He had come to establish a kingdom that would be greater than the Roman Kingdom, that He would break the Roman bondage from off Israel. This was a foolish dream because Rome was a military power with a great army. Besides Jerusalem would not have made so good a capital as Rome. The people received His teaching with enthusiasm because it was a wise teaching in comparison to that of the Rabbis. He mixed with them and they were ready to receive Him until they came to see that He meant merely that they must purify themselves. They said He was not the One who was to come.

As Minnie Man for last evening, J. H. Finney gave a very interesting talk on his Christian experience. This evening Rev. Butler will speak on the Trial of Jesus, and judging from the sermons Dr. Butler has been preaching, especially during this week of Our Lord's Passion, there are none who can afford to miss this talk. Miss Beatrice Stewart will sing "What Will You Do With Jesus?" and a mixed quartet will sing "Though Your Sins Be As Scarlet."

Young People's Night  
Tonight is Young People's Night at the Denmore Meetings, and the evangelist will deliver a special address for young folks on the subject, "The Glory of Youth." The main floor of the church will be reserved for young people between 15 and 30.

Tomorrow afternoon at 3 p. m. Mrs. Demarest will speak to the women in a special Good Friday service with appropriate theme. A Union Communion service will follow at 4:30 p. m. to which all Christians will be welcomed.

Friday night the evangelist will speak again at 7:15, preceded by organ recital, the last service before Easter.

Sunday Mrs. Demarest will speak twice, her two sermons forming one complete whole. General subject: "The Two Frontal Sins," at 3 p. m. "The Younger Son," at 7:15 p. m. "The Elder Son."

The Union Services will close with Sunday night's meeting.

As we go to press Bigelow M. E. church is experiencing another mighty but utterly futile effort to hold the crowd of women who have been plugged in a steady stream in her direction. Some going immediately after the dishes were cleared away from the noon meal, not only that they might be able to hear but also to see plainly the face of the speaker, but to be near her. The sermon last afternoon proved to be as it has been when given elsewhere, the most moving of the three special addresses to women only, and the homes of Portsmouth were well represented in those who came to hear of "Motherhood and the Raising of Children." This the last of the special women's talks, the services tomorrow afternoon being for men and women.

**HOW WOMEN OF MIDDLE AGE**

May Escape the Dreaded Sufferings of That Period by Taking Mrs. Block's Advice

Hopkins, Minn.—"During Change of Life I had hot flashes and suffered for two years. I saw Lydia E. Pinkham's Compound advertised in the paper and got good results from taking it. I recommend my medicine to my friends and you may publish this fact in a testimonial."—Mrs. ROBERT B. BLOCK, Box 542, Hopkins, Minn.

It has been said that not one woman in a thousand passes this perfectly natural change without experiencing a train of very annoying and sometimes painful symptoms. Those dreadful hot flashes, sinking spells, spots before the eyes, dizzy spells, nervousness, are only a few of the symptoms. Every woman at this age should profit by Mrs. Block's experience and try Lydia E. Pinkham's Vegetable Compound.

If you have the slightest doubt that Lydia E. Pinkham's Vegetable Compound will help you write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass., about your health.

## Serve with Oatmeal

—To bring the rose tint to women's and children's cheeks.

—To increase men's energy and vim.

Do this, madam, for tomorrow's breakfast: Stew some raisins according to the recipe printed here, and mix with the oatmeal that you serve tomorrow morning.

Do it for the added flavor—to make oatmeal more attractive.

But do it mainly for the food-iron that raisins send into the blood, and for the raisin's mildly laxative effect.

## The bloom of youth

The tonic food-iron of raisins helps to bring the bloom of youth to cheeks that perhaps are paler than they should be. Then the nutrient of raisins—1560 calories per pound—gives men and children the energy they need.

For regulating, tonic and nutritious properties combined, one can find no other food that's so effective. The luscious flavor makes it easy to serve stewed raisins frequently, so there's every argument in favor of their daily use.

Try it for a month and see. Look in your pantry now. Begin tomorrow.

Send for free book, "100 Raisin Recipes." But first try the recipe printed here.

## SUN-MAID RAISINS

Use Sun-Maid Raisins in all your cooking, for they are the finest grown. Made from tender, juicy, thin-skinned California table grapes.

Packed in an immaculate plant in California. Clean, sweet, wholesome, American raisins—the kind you know are good.

Three varieties: Sun-Maid Seeded (seeds removed); Sun-Maid Seedless (grown without seeds); Sun-Maid Clusters (on the stem). All dealers. Insist upon the Sun-Maid Brand. Send for free book, "Sun-Maid Recipes," describing scores of ways to use.

## Stewed Raisins

Soak raisins over night, pour water off and place in stewpan, putting in not quite enough water to cover and cook slowly for about an hour, then, sugar to taste and add a bit of vanilla. Some raisins do not require much or any sugar.

What Dr. J. H. Kellogg says:

(Dr. Kellogg is head of the famous Battle Creek Sanitarium.)

"Raisins are served on the Battle Creek Sanitarium Table every day. A pound of Raisins has twice the food value, an equal amount of iron and seven times as much food line as a pound of choice lean steak. The sugar of Raisins is much more wholesome than cane sugar, requiring no digestion and being absorbed in one-fourth the time required for ordinary sugar. If the American people would eat more Raisins and less meat the results would be better digestion, less rheumatism, less Bright's disease, less heart disease, greater efficiency and longer life."

## And The Effect is Still Felt

A Jew nailed to a wooden cross until he was dead, the deed done by Jews because He claimed to be their King; this is the story of the death of Jesus Christ.

And yet today all Christendom recognizes Him. All time is measured from his birth. This is 1921 A. D.—anno domini (year of our Lord).

The Jews who crucified Him had no conception of the spiritual kingdom over which Christ came to reign.

Pilate, who ordered the sign placed over His head, did better than he knew; and even though the slayers objected to the definite statement—"Jesus of Nazareth, King of the Jews"—Pilate compelled them to let it stand.

It stands today for millions of men and women.

Jesus Christ is King of their lives. They know that through following His principles they live a more complete life than they otherwise could do.

They, the church members of Portsmouth and vicinity, and the Christians of whatever race and creed, invite every man and woman who has not yet acknowledged Christ as King to do so this Easter time. They ask that you join them in a new resolve to live closer to the highest ideal.

Attend a Good Friday service and enter into the spirit of reverence for Him who died for your sins and for mine. Tell your pastor—or any minister, or officer of any church—that you desire to be a Christian. The step is easy and the way becomes plain day after day.

## GLEE CLUB PLEASES LARGE AUDIENCE

A good sized audience of music lovers was in the high school auditorium Wednesday night when the Ohio Wesleyan University Glee Club gave one of its very pleasing programs under the auspices of the James Dickey Post American Legion. The Legion realized close to \$100 on the entertainment and after the program the Legion members present were congratulated on the quality of the attraction offered on the night.

The program rendered by the Glee

Testament standard.  
The text was taken last night from Isaiah 57:10: "There is no hope." I Thess. 4:13: "Have no hope," using as a subject, "Fast Redemption Point." He said in part: "There is a point on the Niagara River called 'Fast Redemption Point,' and when a boat is swept by that, there is no hope of its being saved. The little word NO, when used in connection with 'Hope,' makes a great darkness to hang over the sick room, over the man who is about to fall financially, or the student who has almost won but failed. It may have been through ill-health or some other calamity, but in all of these seem to freeze the soul and makes one to shudder when the doom is pronounced. No Hope."

This is family night at the revival and a most cordial invitation is extended to all.

## Big Plant Favors Daylight Saving

The following letter has been received from the Whitaker-Glessner Company, A. J. McFarland, vice-president and general manager, on the Daylight Saving proposition, which is now an important issue before the people, in which the company takes position for moving up the clock one hour. The letter in full is as follows:

Portsmouth, O., Mar. 23, 1921.  
City Editor Daily Times.  
Portsmouth, O.

Dear Sir:—  
The Daylight Saving Plan for the City of Portsmouth has been subjected to considerable discussion and comment. After having given this matter consideration we can see no reason why this plan, which especially affords the inhabitants of Portsmouth and vicinity the opportunity and privilege of amusement and recreation, should not be adopted.

With the opening of the Industrial Baseball Season—the great democratic pastime—every Booster and Fan should lend their efforts to keep this National Game on the plain of recognition, to which it has attained, by every encouragement possible.

The Daylight Saving Plan can only be made a success, and the benefits derived for which it is intended, by united action on the part of the Manufacturers, Wholesale and Retail Dealers, other Business Institutions, together with the people, which has clearly been demonstrated in the past. This evening hour can be made profitable and useful to those who are not particularly interested in baseball and can be more fully appreciated by the unemployed in our city, inasmuch as the Industrial Baseball League has made it possible for the rank and file to see these games without unnecessary expense.

For those that cannot become interested in baseball, the Daylight Saving Plan is, no doubt, of considerable benefit to them in that it provides a time which can be occupied in other wholesome recreation or useful occupation during the early hours of the evening. Therefore, on the part of the company and the employees, the moving forward of the hands of the clock one hour, bringing about this Daylight Saving during the summer months, meets with our approval.

Yours very truly,  
WHITAKER-GLESSNER CO.,  
Portsmouth Works,  
A. J. McFarland, Vice-President and General Manager.

**MISS DOLLY WISE**

She is here to answer any and all questions concerning love, matrimony, troubles, woes, etiquette, etc. Inquiries should be addressed to Miss Dolly Wise, care The Daily Times, Portsmouth, Ohio.

Dear Miss Wise—Can you please tell me who is the State Prohibition Commissioner for Kentucky and his address? **KENTUCKY READER.**

Eugene McFarland, former internal revenue man, has been appointed to that office, with headquarters at Louisville, Ky.

Dear Dolly—To settle an argument, please tell me the population of New York and London. Also why Brooklyn is not called New York? **BROWN EYES AND YELLOW EYES**

The World Almanac gives the population of London as 7,258,023 and that of New York as 5,620,048. The same reason why a cat's stomach is not

called a cat, is why Brooklyn is not called New York. It is an integral part of the city, one of the five boroughs that make up the largest city in the United States.

Dear Dolly Wise—I am a girl of sixteen and am in love with a boy of the same age. I correspond with him. Mother doesn't object, but father does.

Don't you think it would be all right to correspond with him? **JIMMIE GIRL.**

Your mother and father should come to an agreement regarding your correspondence. Perhaps your father would be willing if you proved to him that the correspondence was worth while by showing him the letters you write each other. To be romantic, and talk about love would be objectionable, in which case I would not blame your father for objecting. But a correspondence between friends and not lovers would be a wholesome thing, I should think.

Dear Dolly—I am coming to you for advice as you have helped so many others. Dolly, I am 19 years old and am going with a fellow I like very much. I am thinking of getting married. The fellow seems to care a lot for me and always has. I like him very much. He is an awful good boy and has no bad habits and is awful kind. I think he would make a good living. I work hard every day for my living and don't get to save a penny. Thanking you very much. **WEST ENDER.**

Don't marry him just because you think that he could earn you a living. You had better find out first whether you really love and if he has the same feeling towards you.

"Marie"—Plead with your parents to give you proper medical attention and see to it that your education is not neglected. Your father can at least furnish you with good books to read. A bank account is a fine thing, but it would be better to spend the money to make you well. Then you would be able to work and build up the bank account again.

Do not be afraid to talk plainly to your parents. They may be neglecting you because it is the easiest way and because they do not feel able to afford treatments. It is their duty.

**BILLY WHILKERS**  
BY FRANCES TREGO MONTGOMERY

You see, Billy had walked into the room where court was being held, and the man with the gavel was the judge. "I believe that if Satan himself appeared you would go on making a noise," the judge at last called out, in his anger at not being able to restore order, on account of the giggling and laughing that was going on.

As he said this, Billy put his two front feet on a chair that stood at the side of the judge, in order to lift himself higher, so that he could see the better what the commotion on the benches in front of him meant. He had mounted the judge's stand from the back, so "His Honor" had no idea what was going on behind him, but just as he said "Satan," he happened to turn, and seeing two cloven feet on the chair near him, and also some white whiskers and horns, he thought the devil had visited him at his call and he nearly had a fit of apoplexy from surprise. When he found that the unexpected visitor was only a goat, he gave Billy a kick which sent him rolling off the platform to the green doors, which opened silently and let poor Billy roll, bumpily-bump to the foot of the stairs, where he landed in the big hall, from which, you can rest assured, he lost no time in getting out, before anyone could pursue him.

This was his first adventure, and he was about to go back to Nannie, when two dogs pounced upon him, and he

either to fight or be bitten, to pieces. He made quick work of them and then pursued his way unmolested for a time.

The next place he reached was a grocery store, with baskets in front, filled with most attractive, fresh, green vegetables. These he passed with reluctance, but alas! he was so hungry that he went in for just as he was turning the corner away from the store a most delicious smell struck his nostrils. He soon found that it blew through the door of a candy shop, which stood invitingly open. Seeing no one, he coolly walked in, and perceiving pans full of various kinds of candy sitting before him on a low counter, he commenced to lick each one in turn to see which he liked best.

There were heaps of molasses, candy, cream, peppermint, wintergreen and lemon drops. He had just reached the last pan when another whiff of the sweet-smelling stuff blew into his face through an open door, that led to the back of the store. "I think I will go through this door to see where that smell comes from and what it is that smells so good." He went to the door and was about to step inside the next room, when a girl who was throwing molasses candy over a hook, to pull it, saw him.

The unexpected appearance of a big white Billy-goat, with long horns, so frightened her that instead of throwing the candy over the hook, as she had been doing, she threw it over Billy's neck and then fled from the room.

Billy then found himself in a nice mess, with a collar of soft candy around his neck, which stuck to his hair and beard and would not come off no matter how hard he shook his head. Hearing footsteps in the store behind him, he fled out of the back door, through which the girl had gone, where he found a large back yard enclosed by a high board fence, but, thank goodness, the gate was open. Through this he ran as fast as he could in what he thought must be the direction of the house where he had left Nannie.

**Your Manners**  
It is correct  
For all the men of a dinner party preceding a dance to ask each female member of the party for at least one dance.

For one woman to chaperone a group of girls at a dance if it is more convenient than for each girl to have an individual chaperone.

For a young lady when asking a man to call to say "I hope you will come and see me, Mr. Brown," and to state the hour and day when she will be at home.

For the hostess who entertains at a dinner before a dance held elsewhere to provide transportation for her guests.

For a bachelor to pay his duty calls without fail.

It is not correct  
For a woman to ask a man to call upon her at first meeting unless he is a friend or relative of one of her friends, or well known in her social set.

For a man who has called upon a woman several times and been told that she is not at home to repeat the calls.

For the hostess of a dinner party to expect the business men among her guests to pay her a dinner call during the afternoon.

For a woman, who, with her husband, has been entertained at a dinner party to fall to leave cards for him when paying the duty call.

For a young woman to ask a man to call upon her in the evening without indicating that some other member of her family will be at home as well. She should say "Mother and I are usually home in the evenings."

## Her Own Career

(BY PHYLLIS PHILLIPS)

### GWENDA'S FIRST STORY

Gwenda adopted the nom de plume "Vivian Miles" for her newspaper work. Gwenda Channing was too closely associated with her brief theatrical career to lend itself to the serious use of writing, so she decided. Then, too, the new name seemed in some mysterious manner to be charged with all sorts of new possibilities. Vivian Miles was a very complicated version of an old friend, namely, herself. But the psychology of Vivian was entirely different from that of Gwenda. How? Well, in no explainable way. And when Gwenda signed her new name to her first story she felt strangely elated, grown up, and filled with unquenchable fire of ambition. She was going to do big things in this, her chosen profession. She was going to make her name stand for something worth while.

Her first assignment was to cover an immigration story. This took her, of course, down to Ellis Island, where she had her first experience with immigrants en masse. She spent an entire day in their midst, getting stories where she could, and watching their life from the moment they got off the ship until the time they were called for by eager or reluctant relatives, as the case might be.

It was an intensely interesting experience in every way, and at the end of the day Gwenda returned to the office, tired, but triumphant, and eager to pour out her first story. Davis called her over to his desk just before she sat down to her typewriter to give her a few last instructions and to question her about her trip to the island. He seemed pleased with her glowing description and admonished her to keep the same lit to her. Thus in her writing as she did in her verbal description, "It's not always the easiest thing in the world to do, and don't you run away with the idea that because you can describe a thing, or a situation vividly first hand you will always be able to do the same with it on paper. You'll find this out for yourself, my girl. Just write naturally, easily, and you'll put it over every time."

The next two hours were passed at the typewriter. Gwenda wrote at a furious pitch. She was worked up to her article, and deeply interested in it as well. Page after page flowed through the machine and she was just about starting on her eighth when the editor's voice echoed through the room, making her start and come back to the earth again with a bang.

"Remember that you're more or less limited for space," Miss Channing, he called to her. "Don't turn out more copy than we can use, and don't forget that it's almost time for you to knock off for the day."

Gwenda smiled, and bent her flushed cheeks over her work again. Another twenty minutes went by and she gathered up her manuscript and went over it carefully with a blue pencil. This done, she placed it carefully before her editor and with a tired but happy smile put on her hat and started for home.

## Cardinal Gibbons

(Continued From Page One)

The United States entered the conflict urged the fullest support of the government. A few months previously he sent \$10,000 to the American committee in London for the relief of the Belgians, one of the many notable instances of his benevolence. In a sermon at Baltimore, in 1918, he praised a speech by Lloyd George and said that Germany's war aims would fail about the same time he explained Benedict's war policy, an article

which so pleased the Pope that he ordered it translated and published in broadcast. In it he asserted sympathy with the Allied aim of winning the war "for permanent peace." To achieve this result he also expressed opposition to a cessation of hostilities when Austria made fresh overtures.

## Over Fifty Years A Bishop

Celebrating his 50th anniversary as bishop in Baltimore, on October 21, 1918, an event attended by ecclesiastics from all over the world, he received among many other gifts the decoration of Grand Officer of the Legion of Honor from France. Italy also decorated him. A month later he joined with former President Roosevelt, both of whom had been friends for years, in a message of cheer to the American Expeditionary forces. On June 30, 1919, he observed his 33rd anniversary as Cardinal-Archbishop and the 50th year of his priesthood. Cardinal Mercier, the heroic primate of Belgium, visited him on this occasion.

The Cardinal's views on political, economic and sociological questions were frequently sought by newspapers. In interviews he endorsed the plan for the establishment of the Jewish Homeland in Palestine, he opposed the government ownership of public utilities, maintained that prohibition meant "the invasion of home and sacramental practice," condemned divorce, praised the work of the Salvation Army in France, favored American military training, importuned the clergy to fight Bolshevism, demanded that the Turk should be driven from Europe and appealed to the public to support America's entrance into the League of Nations. At a convention of Irish Nationalists in Philadelphia he expressed the hope that the Paris Peace Conference would make it possible "to free Ireland." He was one of the advocates of Neighbor Day for stimulating fraternity and community spirit among Americans. In a proclamation he designated June 12 for this observance.

## Born In Baltimore

Born in Baltimore, Md., of Irish parents, July 23, 1831, James Gibbons spent his youth in Ireland, but when he was a lad of 14 years his family returned to America, settled in New Orleans where he acted as "punctual grocer's boy."

"I look back on these early days of hard work with pride," he said, in speaking of his boyhood. "I am a firm believer in the school of hard and honest labor."

His ambition for the priesthood began in those early days. At 21 he began preparations for his service in the Roman Catholic church. Graduating with distinguished honor from historic St. Charles College in Mary-

land, he pursued his studies at the Seminary of St. Sulpice and St. Mary's University in Baltimore.

"The average American is a lover of peace," he frequently remarked. "He stands for peace at home and abroad. Let us hope that international disputes will soon be decided

not by standing armies, but by permanent courts of arbitration."

At the close of the Civil War, Father Gibbons became private secretary of Archbishop Spalding and was appointed chancellor of the diocese. Through strength of character he rapidly won his way. He was elected assistant chancellor to the second Plenary Council at Baltimore in 1886. Two years later, by a bull of Pope Pius IX, the young priest was transferred to North Carolina where he served as titular bishop and first vicar apostolic.

## Has Remarkable Record

His record in the Southern state is remarkable. He traveled among his people from the sea to the mountains, eating from bare boards and sleeping in shabby cabins. Thus, it is said, he made the personal acquaintance of every adult of the Sisters of Mercy and built for them a school for negroes and whites.

"Religion teaches me that we are all children of the same father," he once said. "We are all brothers and sisters of the same Redeemer, and consequently, members of the same family. It teaches me the brotherhood of humanity."

The hardworking young bishop was sent to Richmond in 1872. He built

PEPTO-MANGAN MAKES RED BLOOD

Start Now To Put Yourself In Good Trim To Fight Disease

The matter of possessing good health depends largely upon yourself. If you think about being healthy and make up your mind to do the things that reason and experience have taught to be best for your health, you can be well unless you have some dangerous disease.

You have a body and it requires care. Nature automatically adjusts things for you up to a certain point. When your blood becomes clogged and full of poison—and that is what happens when you overwork or strain—your vitality runs low. Nature needs help for a time. You need a good tonic. Pepto-Mangan is the tonic to take. It builds red blood. Try it for a few weeks and see how much better and stronger you feel.

Pepto-Mangan will improve your health. Pepto-Mangan is sold in both liquid and tablet form. There is no difference in medicinal value. Take either kind you prefer. But be sure you get the genuine Pepto-Mangan—"Gude's." The full name—"Gude's Pepto-Mangan"—should be on the package.—Advertisement.

and enlarged schools, asylums, and churches in Richmond, Petersburg and Portsmouth. His untiring labor attracted the attention of Archbishop Bayley of the Baltimore Diocese. Through his influence, Bishop Gibbons became his confidant. A few months later Archbishop Bayley died. Bishop Gibbons—43 years of age—became Archbishop of the diocese, then the highest dignity of the Roman Catholic church in the United States. As Archbishop, he headed the delegation of American prelates to Rome in 1883. He outlined their plans for the third plenary council to be held the next year. Pope Leo XIII, appointed him to preside over the council. He directed the enactment of many new decrees which were favorably approved by the ecclesiastical authorities.

Executive Ability Recognized The brilliant executive ability of Archbishop Gibbons was immediately recognized. He was created a cardinal, a prince of the church, a quarter century after he had entered the priesthood. This was in 1886—he was then 52 years of age.

Cardinal Gibbons celebrated the centenary of the founding of the Catholic

hierarchy in the United States in 1888. He convened the first national congress of Catholic laymen in the United States in the same year. He laid the cornerstone of the Catholic University in Washington and was its chancellor since its foundation. He was the first Roman Catholic prelate in the United States to take part in the election of a pope, casting his ballot for Pius X. The scholarship and statesmanship of Cardinal Gibbons has been recog-

nized by theologians of all creeds. "Religion," he said shortly before his death, "is the only solid basis for society. Religion is to society what cement is to a modern building; it makes all parts compact and coherent. The teachings of Christ have been the basis of all Christian legislation for nearly 2,000 years and continue to be the light and guide for hundreds of millions of souls. Neither Solon nor Lycurgus nor Justinian nor Napoleon nor any other framer of laws ever exerted a tithe of the influence which the gospel of Christ exercises on the human races."

The last years of Cardinal Gibbons were spent among his friends in his native Baltimore. He was a picturesque figure on the streets. Notwithstanding his high office, his influence was one of the most democratic of Americans. During his daily walks about the city he received the respectful salutations of persons of all faiths, responding with his genial and cordial smile, whether to a policeman or a distinguished financier.

"We are confronted by at least three great evils," he said in an interview. "They are polygamy and divorce; imperfect education; and the tendency of our women to become like men and less womanly."

Brennan, one of their representatives at the conference, declared in a statement that the agreement was "but a truce for us to prepare for war" and added that if at the expiration period the packers "maintain the attitude they have shown in the past" there would be a "serious industrial strike."

Representatives of the packers declared after signing the agreement that its provision, fixing a definite date for termination of the war time arbitration agreement would "enable the packers to complete plans already announced to adjust between themselves and their employees all matters of mutual interest."

given to understand that a coalition between the bolsheviks and the men-sheviks is also in the air and likely to be brought about as a final proof of the earnestness of the Russians to get back into the family of nations.

Everybody here realizes that a trade agreement is still the forerunner of recognition. The reply of the American government to the appeal of Lenin, therefore will be an effort to pave the way for recognition eventually and

to assist evolution rather than revolution. If the conditions are accepted there is no doubt that a trade agreement with Russia similar to that made between England and Russia will be consummated. The Harding administration has again been spared the necessity of opening an important and ticklish question of foreign policy. France has begun the league of nations discussions. Russia has taken the initiative in one of the most perplexing problems of the entire world situation. If it is once settled the chances for permanent peace in Europe and a return to normalcy abroad will be immeasurably improved.

## Executive Ability Recognized

The brilliant executive ability of Archbishop Gibbons was immediately recognized. He was created a cardinal, a prince of the church, a quarter century after he had entered the priesthood. This was in 1886—he was then 52 years of age.

Cardinal Gibbons celebrated the centenary of the founding of the Catholic

## "A Mass of Sores—No Sleep—Unhappy Days"

So writes F. D. Smith, 4212 Shelter Street, Sandusky, Ohio. He says:

"I suffered terrible itching; body covered with awful sores which caused me great agony. When I was up as incurable, having spent over \$200, I finally tried D.D.D. Prescription. This remedy has made a well man of me."

Thousands of grateful users of D.D.D. are just as enthusiastic over its wonderful results as Mr. Smith. The very first application allays the itching and burning. Just try a bottle of D.D.D. and convince yourself. Your money back if the first bottle does not bring relief. 50c, 90c and \$1.00. Try D.D.D. Soap, too.

ized by theologians of all creeds. "Religion," he said shortly before his death, "is the only solid basis for society. Religion is to society what cement is to a modern building; it makes all parts compact and coherent. The teachings of Christ have been the basis of all Christian legislation for nearly 2,000 years and continue to be the light and guide for hundreds of millions of souls. Neither Solon nor Lycurgus nor Justinian nor Napoleon nor any other framer of laws ever exerted a tithe of the influence which the gospel of Christ exercises on the human races."

The last years of Cardinal Gibbons were spent among his friends in his native Baltimore. He was a picturesque figure on the streets. Notwithstanding his high office, his Eminence was one of the most democratic of Americans. During his daily walks about the city he received the respectful salutations of persons of all faiths, responding with his genial and cordial smile, whether to a policeman or a distinguished financier.

"We are confronted by at least three great evils," he said in an interview. "They are polygamy and divorce; imperfect education; and the tendency of our women to become like men and less womanly."

Sunday, Redmond S. Brennan, one of their representatives at the conference, declared in a statement that the agreement was "but a truce for us to prepare for war" and added that if at the expiration period the packers "maintain the attitude they have shown in the past" there would be a "serious industrial strike."

Representatives of the packers declared after signing the agreement that its provision, fixing a definite date for termination of the war time arbitration agreement would "enable the packers to complete plans already announced to adjust between themselves and their employees all matters of mutual interest."

## EIGHT SHEET MILLS WILL RESUME

That business conditions have passed their lowest ebb and the upside set in, is shown by the authoritative announcement of the resumption of eight sheet mills at the local plant of the Whitaker-Glessner Co., the week of April 2.

These mills have been idle for the past several months and the news that the sheet mills would partially resume business is the best news that has been in the mill district for some time, and the starting of the sheet mill, while not on an extensive scale, will be hailed with delight by the employees of the big concern. There are seven sheet mills at the plant and the starting of eight of them will mean practically a 50 percent operation in that department. The jobbing mills are in operation and with the starting of the sheet mills, business conditions will begin to assume a much better appearance—at Portsmouth's largest industry.

It was stated at the plant that operation in the sheet mill department would start on Monday, April 4 at 8 a. m. The operation of the sheet mills will require the services of 400 skilled mechanics, and in addition the starting of the eight mills will mean operation of the bar shearing department, sheet annealing and cold rolling departments, the operation of one more open hearth furnace, the employment of black warehouse men, and within a comparatively short time the starting of two galvanizing pots. With all these departments under way, a force of practically 750 will be working, which coupled with the number working in other parts of the big plant will mean quite extensive operations. Salaries to employees of the sheet mills together with those in subsidiary departments will be posted at the mill within a very short time. Sheet mill employees are to report at employment office to sign up for their positions Monday, March 28.

While the news of the starting of the sheet mills will be received gladly by the employees, the citizens in general will also at once assume a more optimistic demeanor.

## Individual Pacts Would Bring Enormous Expense To Employees And Roads, Says Labor Leader

CHICAGO, March 24.—Negotiating rules and working agreements on each individual railroad, as proposed by the railway executives, would cost the railroad workers more than \$8,000,000 and require the services of more than 5,000 men, it was stated before the railroad labor board today by E. M. Jewell, president of the railway employees' department of the American Federation of Labor, in presenting the labor side of the controversy over national rules and agreements.

"If the request of the conference committee of managers of the Association of Railway Executives were granted," said Mr. Jewell, "and the national agreement abrogated by decision of the board, remanding the subject matter of rules and working conditions to the respective railroads and committees of their employees for conference on individual lines, the employees' conference committee on each railroad would necessarily be composed of at least one man from each craft at each point on the railroad. For the 107 roads listed the figures show that the services of 5,138 committees would be required at a total daily expense of \$65,700 and a total expense for 90 days of \$5,913,312, additional expenses."

Should Eliminate Cost And Time

"Much of this enormous expense on both railroad management and railroad labor, together with the consumption of valuable time of the highly skilled and essential railroad officials and railroad employees, should be eliminated by co-operation by railroad management and the recognized railroad labor board organizations through the creation of a conference committee authorized to represent on the one hand railroad management and on the other railroad employees of their particular crafts."

The chief figures to show that 95 percent of the 475,776 railroad shop employees of Class 1 carriers are members of their respective craft organizations and declared that since 1912, when the railway employees' department of the American Federation of Labor was organized, there has not been a single authorized strike of federated shop craft employees.

"It is also significant that during this time," Mr. Jewell said, "the greatest progress toward the attainment of just and reasonable wages and working conditions and uniform rules applying alike to all railroads was made."

As representing the federated shop craft employees, he held that an agreement applying alike to all railroads will be a great, if not the greatest, factor in assisting to establish efficient and economical railroad operations. It will remove the costly labor turnover, which always has ex-

## GOOD FRIDAY SERVICES AT ALL SAINTS'

Good Friday will be fittingly observed at All Saints' church as in former years. Litany and Pro-Anaphora will be said at 7:30 a. m. "The

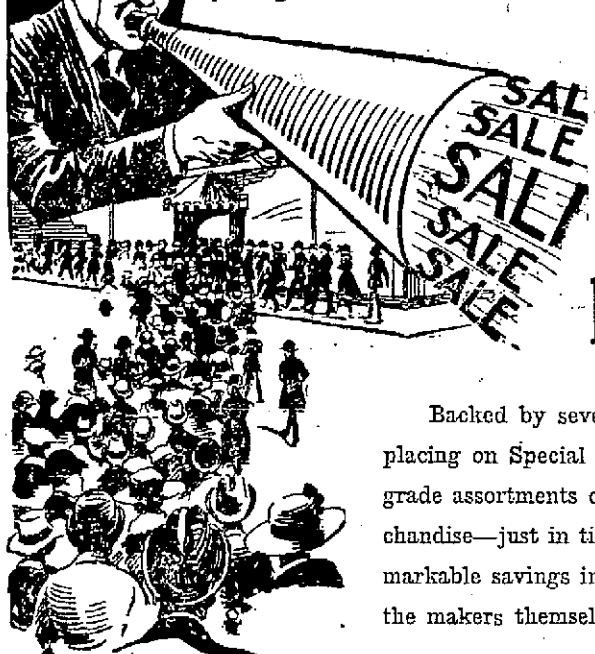

Three Hours" service will be held from 12:00 noon to 3:00 p. m. At this service the Rector will deliver brief addresses in the "Seven Last

Words from the Cross." Those who cannot remain during the whole three hours are at liberty to depart after hearing one or more of the addresses, during the singing of one of the hymns. The best way to spend Good Friday is at the foot of the cross.

Will you not come to this service if only for half an hour? All are welcome.

At 7:30 p. m. Sir John Stainer's "Crucifixion" will be sung. This is not a concert oratorio but a solemn act of worship. Those who come are asked to enter into the spirit of the occasion. A silver offering will be taken to defray the expenses incidental to the presentation of this work. To reach the church walk two squares west to Court on Fourth from Chillicothe street.

## THE MOVIES

At The Eastland Theatre for Two Nights Starting Tomorrow, Vitagraph Presents an Adoption of the Charles Frohman Success "Cousin Kate" with the Popular Star Alice Joyce—a Picture That the Whole Family Can See and Enjoy.

## PROGRAM TOMORROW

A—Overture, Selected, Eastland Orchestra under direction of Wm. A. Spitzer.

B—Vitagraph Presents The Charles Frohman Success "Cousin Kate" with Alice Joyce.

C—Pathe Presents The Vanity Girls in "Running Wild".

D—Laurie Presents The Eastland Review in "Lullabears".

E—Educational Presents a Vanity Comedy "Rest in Peace".

Her life was filled with the men she loved and the men who loved her, and never were they the same until she became casually acquainted with a man whose name she did not learn, while on her way to straighten out the tangled romance of her young cousin. Then, in love at last with a man who loved her, she discovered him to be her cousin's fiancé. Already she had arranged for a reconciliation between the two all unknowingly laboring for the blinding of her own happiness.

There are many tense situations in "Cousin Kate," the tremendously popular Charles Frohman play by Hubert Henry Davies, which enjoyed two long and highly successful runs on the spoken stage as a comedy drama in four acts. At last it has been visualized by Vitagraph as an Alice Joyce production and will be shown at the Eastland Theatre tomorrow.

One of the highest prices of the year for photoplay rights was paid by Albert E. Smith, president of Vitagraph, for "Cousin Kate." The decision to meet the demand of the owners was reached not alone because of the excellence of the material for motion picture purposes, but also because "Cousin Kate" offers the opportunity for the effective display of the remarkable ability and charm of the rising Vitagraph star, Alice Joyce, who has been compared to Ethel Barrymore who appeared in the title role of "Cousin Kate" through its long run on the spoken stage.

The screen version of "Cousin Kate" was directed by Mrs. Sidney Drew.

Playing the Eastland Theatre Tonight for the Last Time, the Photo-Dramatic Sensation, "Whispering Devils," With Conway Tearle and an All Star Cast of Players. Maybe You Were Unable to See This Picture Last Night But Don't Miss It Tonight.

Program Tonight

A—Overture, "In the Devil's Garden," Eastland Orchestra.

B—Conway Tearle in "Whispering Devils."

C—International Weekly news.

D—Brownie, the wonder dog in "The Dog Doctor," a Century comedy.

A photodrama that grips the spectator's interest and holds him spellbound from start to finish, is "Whispering Devils," a six-reel picture starring Conway Tearle and Rosemary Theby, adapted from the stage-play of Henry Arthur Jones, the brilliant English playwright.

"The action is laid in the suggestive, picturesque coast of Western England, and shows Michael Everstham, the village vicar, busily engaged in ministering to the religious needs of his parish. Audrey Lesden, a role played to perfection by Rosemary Theby, comes into the life of Michael, as a woman who is seeking forgetfulness of her unhappy married life, by travel.

Gradually his love of Audrey Lesden becomes irresistible, and one night he meets her by chance, all alone. He cannot control himself, and his passion gets the best of him. He is horrified to learn afterwards that Audrey is a married woman, undivorced, whose husband is still living. He cannot preach purity any more, and at the next service, he makes a public confession of his sin, just as he forced the girl to do previously. He leaves the parish and wanders among the poor, dispensing charity, while Audrey Lesden goes about broken-hearted. Suddenly news arrives that brings happiness to the lovers—it comes so suddenly that it leaves the spectator gasping with surprise, and makes one of the most powerful dramatic climaxes we have ever witnessed on the screen.

E—Lecture in South Webster

"Billions Now Living Will Never Die" will be the subject of a lecture W. H. Spring of this city will deliver in the morning picture theatre in South Webster Sunday afternoon at 2 o'clock.

Advances announcement is made of the rendering of "Immortality" an Easter cantata by Stultz at the First Presbyterian church under the direction of the organist Mrs. J. M. Stockham, for a week from next Sunday evening, April 3rd. The cantata was originally planned for Easter night but was postponed one week because of the union evangelistic services.

There will be several delightful numbers in the cantata, including a baritone solo by H. H. Mead, a tenor solo by Fred Kilgus, soprano solo and soprano obbligato by Mrs. O. J. Deitzler, a male quartet and a number of fine choruses.

Order Restored

BERLIN, March 24.—Order has been restored in Hamburg and the Communists have been ejected from the shipyards which they had occupied.

## HB. WARNER in DICE OF DESTINY

At the Exhibit Theatre Tonight Is Your Chance to See H. B. Warner in "Dice of Destiny." Greater than "Alias Jimmy Valentine"—Also Starring Nick Carter Story, "Nick Carter—Down East."

Against Jimmy Doyle the dice of life were loaded.

Once out of jail he swore to go straight and care for the daughter of his old gang-leader.

The "cops" had him labelled as the slickest, coolest, slipperiest and best-looking jewel thief that ever rubbed sandpaper on his fingers. The "bells" sought the woman if they "framed" him now, Jimmy threatened death to the chief hell-bound.

They did "frame" him! And at the climax second, when Jimmy had the detective, with his life depending on Jimmy's steady hand, Jimmy did the unexpected.

"Dice of Destiny" is a romance flavored with clip-clip action. It's one surprise after another and a suspense like the first roll of the dice.

We unqualifiedly say that this super-drama is the most alluring, popular, merry and speedy feature 11. B. Warner ever played in.

You will recant the motion.

In every land, in every home, in every clime, wherever human beings exist there are whispering devils who urge good folks to do things they shouldn't do. Some resist. Others don't. The call of the heart and passions are stronger than the path of duty.

In Henry Arthur Jones's tensely dramatic story, you will see how the whispering devils urged the man of the faith to follow his human instincts. You will see the young girl, who stumbled on her upward path. You will see the beautiful married woman who loved wisely and too well. ## THOUSANDS INSPECT KLINE'S BEAUTIFUL STORE

From every standpoint was the opening of A. Kline's handsome new store on Gallia street an "unqualified success." When the doors of the magnificent store were opened at 7 o'clock

### SWEAR OFF TOBACCO

"No-To-Bac" has helped thousands to break the costly, nerve-shattering tobacco habit. Whenever you have a longing for a cigarette, cigar, pipe, or for a chew, just place a harmless No-To-Bac tablet in your mouth instead, to help relieve that awful desire. Shortly the habit may be completely broken, and you are better off mentally, physically, financially. It's so easy, so simple. Get a box of No-To-Bac and if it doesn't release you from all craving for tobacco in any form, your druggist will refund your money without question.

a great crowd poured in and for three hours it was inspected and admired by thousands of people. Mr. Kline was congratulated on all sides for his progressiveness, his good taste and his efforts to give the city another strictly up-to-date ladies' ready-to-wear store. It was a night the women and hundreds of men, too, had long anticipated and they worshipped at the shrine of Dame Fashion. It was a memorable night in this respect, and as the crowds wended their way from one department to another, they had only the most enthusiastic praise for Mr. Kline and his capable staff of assistants.

The visitors were amazed at the beauty of the store's artistic front, the clever manner in which the season's latest styles were displayed and the wonderful patterns to select from.

The very latest styles for midday were shown in profusion and it was a great night for the lovers of wearing apparel for the feminine sex.

After the beauty of the entire store was commented on, the visitors turned their attention to the living models, who disported themselves in the very

latest gowns. They were the center of attraction and added much to the success of the opening. As they walked past a runway built in front of the windows on the second floor, they were reviewed by many hundreds of people, who stood in the street to glimpse the season's latest styles.

At one time the crowd became so large that two policemen had to open a lane through it so traffic was not halted. It is estimated that fully

### "Cascarets" for Constipation

Just think! A pleasant, harmless Cascaret works while you sleep and has your liver active, head clear, stomach sweet and bowels moving as regular as a clock by morning. No griping or inconvenience. 10, 25 or 50 cent boxes. Children love this candy cathartic too.

5,000 people inspected the store last night.

"It was really a wonderful opening and fully convinced me that our efforts to please the buying public will be appreciated," Mr. Kline said last night. "We have worked faithfully for this opening, and it is a night I shall not soon forget. I am certainly grateful for the many kind words and good wishes that have been bestowed upon myself and assistants."

The lighting system is so perfect in the store that it elicited many complimentary remarks. In fact no feature has been overlooked that would make buying a real pleasure in that store. The spacious windows, which are finished in hand-laid walnut are real beauties. There are no finer anywhere. During the opening Journey's Orchestra was in attendance and furnished inspiring music.

Those presenting flowers to Mr. Kline were S. Rosenthal, M. Lehman, Pete Warsaw, Felix Haas, William Atlas, Simon Labold, Phil Jacobs, Joseph Braunman, I. Quasser, Chamber of Commerce, Sales Force, Ray,

Lenn and Mrs. Goldberg, Keystone Press Company, Manhattan Restaurant, Morris Floral Company, Thomas Mafta, Irving Stewart, Horebow's, Henry Atlas, M. L. Aronson, Charles Schwab, Harry Wadler and S. V.

### ECZEMA STOPPED AT ONCE

Columbus Man Got Instant Relief After Eighteen Months of Suffering

This man knows what the torture of Eczema is and gives positive proof of the instant relief Hydrosol was to him. His name is Mr. Thomas Stokes, and he lives at 122 East Russell Street. He says: "I suffered for 18 months and tried everything possible, but had no relief until I used Hydrosol, which I think is wonderful and I will do all I can to inform anyone."

Hydrosol stops the horrible itching and burning in a few moments after application, and the rash soon disappears. It does not stain the flesh or the clothing. It is splendid relief for any skin disease that itches, pains or burns. It heals ulcers and old sores quickly and often pimples disappear over night. Hydrosol is sold and recommended by most good druggists at 25c and 50c. Write today for our free booklet on skin diseases and their treatment and sample of Hydrosol to show what it will do in your own case. Address 412 Hydrosol Laboratories, Cincinnati, Ohio. —Adv.

### USE IODINE FOR SKIN IRRITATIONS

Pimples and Blemishes Vanish

If people would only have Iodine in the home at all times for a family remedy, they would nip in the bud many serious afflictions and always have an antiseptic and healing remedy for everyday accidents and ailments. Says a woman who speaks after many years' experience in raising a large family:

"Take Eczema for instance," she says, "we used to call it St. Anthony's fire when I was young. The red, irritated swollen skin, the itching and burning are maddening, and Iodine is the remedy."

Physicians are practically unanimous in recommending Iodine. They prefer it in its best form—Lanolin-Iodine Compound—which is soothing, healing and powerful, yet never irritates or blisters, and is practically stainless. It is quickly absorbed into the tissues and glands, usually giving prompt relief.

Jas. A. Hager and Fisher & Streich have this agreeable Iodine ointment and gladly recommend it as it gives unusual satisfaction. Be sure to get Lanolin-Iodine for best results. —Adv.

### COURT HOUSE

**Want To Sell Land**  
The Anti-Tuberculosis League through Attorney Harry Ball filed an application in Common Pleas court Wednesday seeking authority to sell a tract of 3 1/2 acres of land situated in Clay township. The society was organized some years ago for the purpose of combating the dread disease, tuberculosis and used the ground as a fresh air camp.

It is represented that the work has been taken up and assumed by a larger civic movement, the Bureau of Community Service and that the land is no longer needed by the society which will wind up its affairs.

**Gill Seeks Divorce**  
George Gill, laborer living at 543 Mill street, charges neglect and infidelity in his suit for a divorce instituted in Common Pleas court Wednesday against Florence Gill, 12 Bond street, whom he married in September, 1914.

Through Attorney A. R. Campbell the plaintiff complains that the defendant left him last December without fault on his part and has since failed and refused to return and he further alleges that she has associated with other men and names one Jesse Sparks.

**Foster Case On Trial**  
The case of Mark Foster, a minor, by Oscar Foster, next friend, against Cora Foster, administratrix of the estate of Sarah Foster, deceased and Newt Crain, heir and legatee of the decedent, went to trial before Judge Thomas and a jury in Common Pleas court Thursday morning.

The plaintiff sued to recover \$1500 on a claim for compensation for services rendered the decedent during a period of 15 months prior to her death in February 1920. The claim was disputed by Crain but not by the administratrix.

Attorneys C. M. Searl and E. G. Millar for plaintiff and Attorneys A. C. Woodrow and J. T. Micklethwait for the other side.

**Charges Cruelty and Neglect**  
Alleging cruelty and neglect, Ruby Lowdenback, 2011 Robinson avenue, seeks a divorce and alimony and custody of their child in an action filed Wednesday in Common Pleas court against Vernon Lowdenback, N. & W. car repairer, whom she married in 1909.

Through Attorneys Blair and Blair she claims the defendant has cursed and abused her and has failed to support her and their child. The wife asks that she be awarded the home and furnishings and she obtained a temporary injunction tying up his wages until the case can be heard on its merits.

**Youth Admits Guilt; Fined.**  
Ray Booth, aged 14 years, arrested Wednesday on a delinquency complaint in connection with the theft of a bicycle belonging to Elhan Allen, admitted guilt when brought into Juvenile court Thursday and Judge Gilliland made him a ward of the court and ordered him to pay a fine of \$5 and costs. Joseph Booth, 923 Washington street, father of the lad, paid the fine and the youth was released from custody.

**Attorney Miller Coming Home**  
Attorney Harry W. Miller, who went to San Antonio, Texas, soon after the holidays for his health expects to return home within a few days, he advised his law partner, C. M. Searl in a letter received by the latter Thursday. He writes that his health has greatly improved and that he is now feeling fine and dandy.

**Henley Magistrate In Town**  
Squire N. R. DeBolt of Union township, was in the city Wednesday on legal business.

**Trial Continued**  
When the case of Joseph Steagall against Constable J. F. Stillham, of Sciotoville and his bondsmen, H. D. Palmer and Alfred Fowles was called for trial before Judge Thomas and a jury in Common Pleas court Wednesday, a continuance was granted until next Monday on the application of the defense.

The plaintiff sued for money in connection with an alleged false return made by the constable on an execution.

**Files Declaration**  
Nick Kallus, 55 a native of Greece, filed a declaration of his intention to become a citizen of the United States.

## Pratt To Report

BOSTON, March 24—Derrill Pratt, second baseman acquired by the Boston Red Sox in a trade with the New York Yankees, will report for duty shortly before the opening of the season on April 13, it was reported here in dispatches from the Sox training camp at Hot Springs, Ark.

The former Yankee, who is coaching the University of Michigan baseball squad, had announced he would retire from major league baseball, Harry Frazee, owner of the Sox, is reported, however, to have induced him to reconsider.

Stuffy McInnis, first baseman, is a hold-out, but he, too, is expected to be in uniform when the season opens. The Sox infield, composed of Pratt, McInnis, third baseman Vili and Shortstop Scott, is valued at \$250,000 by Frazee.

Trinity Qualifies For Finals

The Senior basketball tournament at the high school entered by a number of local favorites will not doubt be won by the fast quietest representing Trinity Sunday school.

This five qualified for the finals Wednesday afternoon when they won from the Second Presbyterian five 48 to 14. Trinity and Second were victors Wednesday morning. The Trinity five is composed of Staton and Wallace, forwards, Millard, center, and Gulker and Brant, guards. Manning substituted for Wallace part of the game. Second Presbyterian was represented yesterday by Dressler and Ringles, forwards, Roth, center, Canfield and Campbell, guards.

The First Presbyterian five won the right to take part in the semi-finals this afternoon when they defeated the Portsmouth College of Business five 22 to 14. This afternoon the First Presbyterian five will meet the Seigsville M. E. team.

The lineups: First Presbyterian—Pride, left forward; Doll, right forward; Phillips, center; Morris, left guard; Stark, right guard. Seigsville—Acheson, left forward; Stout, right forward; Lavender, center; Mauley, left guard; Evans, right guard. Vets Win From Bearcats

The hoped for defeat of the Selby Vets by the Bearcats did not materialize last night, the Vets, winning three straight. The Culls who were hoping that the Bearcats would take at least one, and better yet, two games from the Vets, are now hoping that the Doctors or Wolves, who are to play the Vets, will take two games between them from the league leaders. The Vets can lose one game and still win out. Should they drop two games, the Culls, by winning three more, can tie the leaders.

The Bearcats played hard, but the Vets were playing their best game of

the season and it would have been hard for any team to beat them last night. Pearce starred for the losers while H. Selby and Brennan played best for the Vets. The scores were 21-15; 21-12 and 21-10.

The lineups:

Selby Vets—Brennan, Willes, Goddard, Donahoe, Weinbreuner, Homer Selby.

Bearcats—Rex Selby, Harris, Pearl Selby, Pearce, McNulty, Ferguson.

Selby Culls Add Three Victories

While the Selby Vets were winning from the Bearcats the Culls from the same factory were taking three straight from the Doctors who are away down in the league standing but who are still in the game fighting their best. The Culls were in fine shape yesterday and the Doctors had little chance of winning from such a well organized team. The Culls have three games to play and their season will be over. The scores were 21-3; 21-18; 21-4.

The lineups:

Selby Culls—R. Selby, Hanck, Gelfin, Lorey, Groh, Freeman.

Doctors—Wickoff, Bernat, Mickelwait, Gault, Tuttle, Butler, Happ.

Kansas To Meet Leonard

Rocky Kansas is going to get a crack at Benny Leonard. It is likely their fight will be staged in New York within three or four weeks as Leonard has fully recovered from his recent illness.

May Train In Waco, Tex.

CHICAGO, March 24—Spring training activities for the White Sox, so far as the camp at Waukegan, Texas, is concerned, closes today, according to reports from the camp. Uniforms were dealt out to the first and second squads last night and tonight and the regulars leave for Wichita Falls, Texas, for three games. It is reported that releases are expected soon for three pitchers, Waco, Texas, it is said has been picked as next spring training camp.

Will Play Doughboys

DETROIT, March 24—The Detroit Americans are to bring their stay at the training camp at San Antonio to a close tomorrow with a game with the "doughboys" from Camp Travis, the receipts to go to the soldiers' hospital equipment fund. The game was originally planned for Wednesday, but was postponed on account of rain.

Donalds Sent Against Giants

The New York Giants beat the Houston, Texas, club yesterday and Eddie Donalds was one of the pitchers the Houston manager sent against the Giants. Donalds is in fine shape and says the Texas league looks to be in for a great year.

Ironton Ball Team Organizes

IRONTON, O., March 24—The Ironton Baseball Club held a meeting last evening and organized for the coming season. Dick Smith was elected manager, with "Shokey" Taylor, captain, and "McOne" Gorman secretary-treasurer.

The team will play only on Sunday so as not to interfere with any of the Industrial teams, and will hold two practice sessions on Tuesday and Thursday evenings during each week of the season.

Manager Smith feels that with the amount of material on hand, he can develop one of the best ball teams Ironton has had since the days of league ball. He will have Sisler and Joe Willis as his main stars in the box with Cannon behind the plate. The team will open the season at Russell on Saturday, April 9th, which will be the opening day there, while Russell will be here on Sunday, April 10th, to open the season in the city.

Pitchers Get A Real Workout

PITTSBURGH, Pa., March 24—The pitching staff of the Pittsburgh Nationals had its first real workout at the Hot Springs training camp yesterday when Walter Schmidt, star catcher, donned his mitt for the first time and put the moundmen through the paces. Schmidt was late in reporting for training, but when the Pacific Coast backstop said he was in good condition, Manager Gibson sent him out to work with the pitchers.

AH, 'TIS TRUE, GIRLS, BENTON IS MARRIED

The Spartanburg, S. C., Herald says:

Members of the fair sex who sat in the grandstand during the 1920 baseball campaign and gazed admiringly at the direction of little "kub" Benton are not going to enjoy this story—the fact-footed little outfielder is married! Benton was married two weeks ago, his bride being one of the loveliest young ladies of Portsmouth, Ohio. Manager Bridwell, who was in the same city, gave out the announcement here last night. Benton and his bride are expected to arrive in Spartanburg Sunday night. The little outfielder will attempt to sew up that rightfield job this year.

Hunter Will Build Ball Park

Fred Hunter, who will boss the Lansing, Mich., team in the Central league has been empowered by the club owners there to build the new ball yard in that city. Fred says it will be an up-to-date plant when completed and that he is going to bend every energy to put a winning team in Lansing.

Selby's Bowling League

In the Selby Bowling league last night the Rounders won two out of three. The Trimmers trimmed the Office gang three straight.

The Wreckers lost the first game by 15 pins and were completely wrecked in the second game by the Rounders winning by a big margin. In the last game the losers staged a comeback all rolling their games of the evening and beating out their opponents by 11 pins. The Office gang was badly crippled by the first two games with only two men present. Lorey came to the rescue in the last game but the Office force had lost their pep and the Trimmers won easily. The score:

Will Keep Squad Intact

CLEVELAND, O., March 24—Manager Tris Speaker, of the Cleveland Indians, intends to keep his squad intact until the middle of April at least, unless received from the spring training camp state.

Bids have been received from minor league clubs for several of the reserves, but Speaker has not offered the bidders much encouragement.

No pronouncements are the youngsters, in fact, are that none of them, with the probable exception of Jack Gills, Boston catcher, will be released outright. Gills, the reports declare, appeared to be shy of big league class.

Rheumatism Is Best Treated Internally Through the Blood

Medical science now recognizes that the ailment we call rheumatism is often caused by impurities in the blood which manifest their presence by those aches and pains which torture so many sufferers. Though outside, rubbed-on treatments may relieve the pain for a time, they do not cleanse the blood and remove the cause of the trouble.

For lasting relief, you should take a good alternative blood remedy, which will counteract the

## A MAYOR ON THE JOB

HERE'S to Mayor Peters of Boston! There is a man not so puffed up with the dignity of office that he cannot, after the fashion ascribed to that good Calip, Haroun Al Raschid, go about among his people incognito when occasion demands. Mayor Peters disguised himself as a tramp and sought out the chief lodging houses and the charitable institutions which serve the physical needs of the down and out in order to find out just what treatment was being meted out to the unfortunate of Boston.

The lodging for a night which His Highness, the Mayor, was given brought him in touch, it is safe to say, with a class of citizenry with which he had never before mixed, at least not at his official capacity. He will be a better mayor for having rubbed elbows with the lowliest strata in the social scheme. When he faces bankers, business men and the representatives of organized charities he will have the viewpoint not of the giver but of the recipient of the city's alms.

Few public officials will go to such length as Mayor Peters in an attempt to be the real representative of all the people. But his example coming from conservative Boston, is a precedent that may well be emulated.

## OPPORTUNITIES OF THE DOLLAR

NEVER before in the history of the country have the inducements to saving been greater than at present. Government bonds yield from 5 per cent to 5.8 per cent, foreign nations of foremost standing borrow at 8 per cent, and our own industries pay from 6.5 per cent to 8 per cent. The lender occupies a point of vantage. The need of the world today is for capital, and he who has a dollar to lend can set upon it almost his own price.

Two decades ago 3.5 per cent was perhaps the general earning power of money when invested in unimpeachable security. The prevailing price of railway bonds was 4 per cent and even at that figure those of the best standing commanded a premium. In 1901 of 582 railway and industrial bonds listed on the New York stock exchange 178 yielded less than 4 per cent and one less than 3 per cent. Only 47 yielded more than 5 per cent.

But this is not all. Today prices for commodities are high, and the dollar is worth only about half as much as formerly. If its purchasing power is ever restored, a contingency which seems most likely if Europe returns to the gold standard, the lender will profit doubly. In other words, the possessor of capital can lend it with abnormally high rates and further inducement in the probability of getting back for his cheap dollar of the present the enhanced dollar of the future. Surely the reasons to save and invest were never more alluring.

## New-York-Day-By-Day

BY O. O. MCINTYRE

NEW YORK, March 24.—These are dispiriting times for those gentle souls who look back on their pink youth through a mist of Tompkins. Browning and organic—to the days of chivalry and chaperone. It is a selfish, dissipated social stratum, this younger generation that is springing up in New York.

Eight or ten years ago the dissipation of the so-called "nice" young people would have been quite characteristic of the red light melodramas. To deny that young folk of good parentage in Manhattan are indulging in an era of reckless unrestraint is simply to be calumny to facts.

Any casual observer may see a strange letting down of conventions in almost any neighborhood. Over-painted and under-dressed maidens think nothing of carrying flasks into public dining-rooms, smoking cigarettes and becoming boisterous enough to incite a head waiter's frown.

An all night dance place, high priced enough to be exclusive, was the scene of an engaging the other evening that was enlivened by the daughter of a family, socially renowned in both New York and Philadelphia, was publicly rebuked by the professional hostess at the place for kissing her companion forcibly during a dance.

The entire party left in a huff, leaving only their empty bottles of Scotch under the table. The other night about 11 I stood under the cupped entrance of a ball room watching the arrival of limousines bearing people I happened to know were of the social elite.

Car after car drew up with beautifully gowned girls in their teens smoking, with no effort at secrecy. A small thing perhaps in itself—but a symbol of the reckless, restless spirit of unrestraint. One o'clock trips to road houses, unchaperoned, are nothing unusual these days among those leading the padded and cushioned life.

More than once police have been called in the early morning hours to

fine apartment houses on Park and Madison Avenues to still the tumult. These are the residential sections inhabited by people who have had all the advantages of refined atmosphere.

"I'll tell the world" which has gained currency in recent years as a slang phrase—a phrase without which no New York chorus girl's conversation is complete—is not at all new. It occurs in Chapter XLIV of "The Roman Road" by George H. Borrow, which was published in 1857.

There is a crowded corner on Seventh Avenue, where vaudeville actors congregate in the early evening. They dine at dusk because they must report early in their various theatres. For a half hour or so they hold an informal out-of-door meeting. It is filled with coal-dusted badinage and harmless bragging. A vaudeville artist is the super optimist. He will never admit he is out of a job, or that he is making a salary less than that of the president. It is a genial sort of bluffing for in his heart he knows he is not believed. The vaudeville artist embodies the spirit of the railroad traveling actor of a generation ago. He is ever imprudent and lovable and somehow he is always able to present a prosperous front.

Houston Street, west of Third Avenue, is lighted chiefly by the soft glow from the open gas jets in the hive of small shops. It is an industrial street. Foreigners work until midnight mostly. They are dreaming of the days they can move northward into a "swellish apartment" and they do not mind the long hours, craggy-faced men crouch tailor-fashion in window sewing, sewing and sewing. A man cannot visit Houston Street or Mulberry at night and see his workers without feeling pretty much the same.

## TOPICS OF THE TIMES

By W. G. SIBLEY  
The Sibley Service, Gallipoli, Ohio

**Industry The Touchstone**  
Industry is habitual diligence in all that is good, persistent effort, physical or mental. It includes all productive labor—agriculture, manufacture, transportation, building, thinking, planning, reasoning and research. Its scope is boundless, embracing every purpose of muscular and intellectual exertion.

All bodily strength, brain force, as plentiful opportunity, persist if not vitiated into action by the work habit. Even genius, man's rarest and supreme gift, is futile without diligent industry, ever essential to its perfect functioning.

Industry is irresistible; a vital element in character, the nourishing spiritual principle at the root of all human achievement. It is by it that the fine ambitions of life are accomplished. It is it that resists the entire structure of progress—home, government, invention, art, science and every branch of learning. It has inspired education and civilization, founded and stabilized human rights, established ways and means for enlightened living. From it come prosperity and wealth, from it come power to promote benevolence, religion, law order and all enterprises which open avenues to success for men in all employments. It is the universal touchstone—the decisive test—of character, reputation, honor and distinction.

Whence comes this immeasurable power to man, this influence that sends him to the ends of the world, crowds him to the limits of endurance, and to the peaks of courage and resolution? From his Maker, who endowed him with will, the mighty control by which he subdues his passions, dominates his muscles, drives his intellect and centers his purpose on habitual industry.

Our bodies are our gardens, to which our wills are gardeners," wrote Shakespeare. We may have them sterile with idleness or manured with industry, because "the power and corrigible authority lies in our wills." Holy Writ and experience unite to exalt industry, although the word is found but once in the Bible. But its synonym, diligence, occurs frequently. "The hand that is diligent, maketh rich," we read; and "sweat thou a man, diligent in his business, he shall stand before kings; he shall not stand before mean men."

The test, the touchstone, of every man is industry. He can have no true dignity, success or honor without it.

## Questions AND Answers

(Any reader can get the answer to any question by writing to the Editor, The Portsmouth Daily Times, Chillicothe, Ohio, and enclosing a self-addressed envelope for the answer.)

Q. Where is the center of population of the United States? G. L.

A. According to the 1920 census, the center of population is located in the extreme southeast corner of Owen County, Indiana, 8.5 miles southeast of the town of Spencer.

Q. What are the greatest oil producing countries in the world? D. M. S.

A. The United States, Mexico, Russia, and Dutch East Indies (including British Borneo) are the greatest oil producing countries in the world.

Q. I am a widow of the world war. Would it be possible for me to receive vocational training from the Government? J. N. W.

A. It is provided in a bill passed January 31, 1921, that widows of Americans who were killed in the war are entitled to such training.

Q. When and where and by whom was cotton discovered? D. W. A.

A. The oldest known cotton production in the world is from the Indus valley in the Punjab, where for 30 centuries the plant has been grown and its three-manufactured.

Q. Before the World War did Germany export sugar to us, or did we send sugar to Germany? R. C. M.

A. The Bureau of Foreign and Domestic Commerce says that before the war the United States exported sugar to Germany and Germany exported beet sugar to the United States.

Q. What are the jewels in the back of watches, and what are they there for? A. G.

A. Jewels are used in watches as pivot bearings. In some watches diamonds and rubies are sometimes employed, but ordinarily the cheaper stones, such as garnets, are used.

**Money for Luxuries**  
When the school tax is boosted two or three mills in a small or rural district, the farmers declare, b'gosh, that the board of education will ruin the taxpayers. Indeed, as a matter of fact, in many communities regarded as enlightened, the sole interest of large groups of voters have in school elections is to keep down expenditures for education.

The Republic is dependent on education for its continuance as is all good government, of for aid by a free people. We should remember this as we study expenditures in the United States for luxuries in 1920. They totaled more than twenty-two and a half billion dollars, the Government announces. — "nearly one-third more than the grand total spent for education during the whole existence of the nation."

Education is our first need—education of our emotions, morals, intellect, education in purpose, industry, righteousness and thrift. We may offend by leaving sports out of the list, but the authorities do not.

In Chillicothe, Ohio, resides Jim Scott, a colored man who was in the Spanish-American war and drawing a pension of \$12 a month when he entered the war against Germany. He was then 42 years old, but enlisted in the service knowing his pension would be discontinued. Hard service came his way in the most trying times for our troops in Europe. He could stand up to, he tells us, but he got home safe, and is now shining shoes in a hotel.

We wonder how this sort of patriotism on the part of a colored man strikes a fellow like young Edsel Ford, for instance.

The steamer Queen City left Cincinnati Monday with a cargo of freight for Pacific Coast ports. It will go down the Ohio and Mississippi to New Orleans, and there be transferred to a sea-going bottom and sent on to its destination via Panama. The rate will be \$2.25 a hundredweight against \$4 by rail. It now costs more to ship California fruits east than the fruit it carries.

Mary Garden attended a daily Sunday meeting at Cincinnati the other day, and was introduced to the great audience by the evangelist. Our thoughts reverted to Mary in the role of "Thine," one of her most dramatic operas. This and Sunday—a strange contrast!

Q. Is there such a thing as Arctic blindness? E. B. McG.

A. Arctic blindness is by no means a myth. This form of blindness is attributed in part to the fact that the glare of the sun on the snow causes the eyes to "smart." Almost invariably a man will make his hand to his eyes and rub them with his mittens which cause aggravates the condition and causes irritation.

Q. What kind of gas is used in airships and how much does it take? F. L. E.

A. The Air Service of the War Department says that hydrogen or helium gas is used in airships. Helium is not on the market, but hydrogen gas can be obtained from a number of manufacturers in steel cylinders. In practical ballooning, it has been customary to use a balloon of about 200,000 cubic feet using hydrogen, in order to carry one person, ballast, etc.

Suppose

Suppose that all we say in a single day

With never a word left out, Were printed each night in clear black and white,

'Twould prove queer reading no doubt.

And then, just suppose ere one's eyes should close,

He must read the day's record through.

Then wouldn't one sigh and wouldn't one cry,

A great deal less talking to do.

And I more than half think that many a kink

Would be smoothed in life's tangled thread.

If half that we we say in a single day,

Were forever left unsaid.

**A Leader Not Leading**  
A very cultivated, Englishwoman who writes excellent verse and who, from her sense of beauty, still clings fondly to her Swinburne and Wordsworth—was taken to a poetry society reception the other evening. Not like

ing vers libre she is not familiar with the names of its exponents; and during the evening the name of Amy Lowell came up for discussion.

"Amy Lowell! Amy Lowell! Who is Amy Lowell?" she asked.

The young man in horn spectacles gazed at her scornfully and replied, "Amy Lowell is our leading poet."

"Where, may I ask, is she leading you?" said the English lady.

**Willing Messenger**  
Come Seven Johnson was relating a tale of a wonderful experience in the war while his colored admirers listened open-eyed.

"Yes, Ah looks to de right and here's a big bunch of bushes comin' toward me, and Ah looks to de left and dere's another big bunch comin' toward me, and Ah looks ahead and dere's de whole Bush army comin' toward me."

"Yes, yes, and den what did yo' do?"

"Man, Ah thinks of all de poor 'Mericans back of me waitin' to get pounced on—and Ah spreads de news!"

**Severely Damaged**  
The amateur huntsman sighted along the barrel at a distant bird and pulled the trigger. There was a roar and he ran forward, to find nothing but a plucked tree trunk lying about his feet.

"Not so bad, not so bad," mused the hunter complacently. "I didn't kill him but I certainly knocked all the feathers off him."

## NEW BOSTON

The Evangelical service of the Baptist church of New Boston continues to gain in interest. The song service was led last evening by Mrs. Jenkins and the solo was given by Miss Roberta Allbaugh. A new leader and soloist will be provided each evening. The pastor made mention of the pioneer work of the Apostle Peter as well as his leading doctinal and showed how our Lord had made supplication for him. From that he drew the lesson that we have come to know the Lord much the same as Peter and we must remember that Jesus is now our intercessor at the right hand of power. The subject this evening is "Pavon from Jesus."

Millbrook Council No. 77 of A. M. met in regular session Monday evening with Mrs. C. F. Lockman in the Councilor's chair. No initiation was held as expected candidates failed to come.
